- Vertical drop single feed
- Superior document handling
- 1-line Ink jet endorsement option
- Higher return on investment

### i:Deal<sup>®</sup> m:Deal<sup>™</sup> w:Deal<sup>™</sup>

- Horizontal single feed
- Front franking option
- Multi-format and multi-host models

# Vision 1

The **Vision 1** is a single drop feed, high value version of **Vision X** for highly professional and user-friendly small-medium business Remote Deposit Capture or low volume Teller Image Capture applications.

The **Vision 1** is able to read MICR with top accuracy, capture superior quality duplex images (including TrueColor and FastColor) and physically mark items on the rear side via its one-line ink jet printer – effectively positioning it for all circumstances where legislation, compliance requirements, or the Financial Institution’s preference imposes the use of rear physical item endorsement – while simplified mechanics and no feeder consumables enable even simpler maintenance and increased cost savings.

The **Vision 1** leverages the proven performance and capabilities of the world’s most trusted platform in check capture, the Panini Vision X – universally considered the industry benchmark for distributed capture with close to a million installations worldwide – bringing its many advantages and benefits to a small volume capture scenario, including its ergonomic drop feed mechanism and superior document handling.

## Single Feed (RDC) Scanners Features Matrix

	Vision 1	Vision X1F	i:Deal	m:Deal	w:Deal
Scalable to batch feed		●
