HIGH-SPEED, HIGH-QUALITY SCANNING FOR OUTSTANDING PRODUCTION EFFICIENCY

The Canon imageFORMULA DR-G2110 production document scanner, with both USB and ethernet connectivity, provides businesses with a high-performance, reliable, and flexible scanning solution as part of a robust document management system.

WIDE VARIETY OF APPLICATIONS

The DR-G2110 scanner is ideal for processing large amounts of documents in mission-critical, centralized production scanning environments. It has been developed to withstand the rigors of production-level scanning while maintaining high-speed, high-quality imaging. The DR-G2110 scanner can help businesses improve productivity, maintain continuity, increase efficiencies and securely manage information.

HIGH PERFORMANCE

The DR-G2110 scanner handles up to 110 pages per minute—both sides in a single pass*—and holds up to 500 sheets in the ADF. It is also equipped with a dedicated, onboard image processing chip, making it capable of maintaining fast scanning speeds, independent of PC performance. These features all help contribute to improve productivity.

RELIABLE AND FLEXIBLE

This scanner is flexible enough to reliably handle a variety of document types, from business cards to ledger-sized documents, long documents, and thin or thick documents,** using its advanced feeding mechanism. This helps reduce labor-intensive pre-sorting and job preparation. Plus, double-feed detection helps to ensure that no data is lost. A durable, solid-body design as well as heavy-duty feed and eject trays contribute to the scanner's reliability.

In addition to the USB connectivity, ethernet connectivity is also included in the DR-G2110 scanner, adding to the scanner's installation and operational flexibility. Plus, ethernet connectivity support can be helpful for use in Virtual Desktop Interface (VDI) environments.

EFFICIENT, SMOOTH OPERATION

The DR-G2110 scanner features an intuitive control panel that allows easy access to scanner settings, and user-programmable job buttons for one-touch operation. This scanner is also equipped with a motorized paper feed tray that can be adjusted to the height of the batch, and flexible paper feed and output guides. This, plus the ability to handle a variety of document types,** allows for unattended batch scanning, which can help optimize workflows and increase efficiencies.

ENVIRONMENT IN MIND

The DR-G2110 scanner is registered EPEAT gold and meets ENERGY STAR® guidelines for energy efficiency. It also complies with both the EU RoHS and WEEE directives for the reduction of hazardous substances and waste products.***

CUSTOMER CARE

For investment protection, eCarePAK options are available to extend service beyond the initial 90-day, on-site limited warranty period. This can save on costs associated with post-purchase maintenance and helps maximize uptime throughout the product life.
